September 17th, 2008

FEMTOMETER™

Few cycle pulse characterization

FEMTOLASERS Produktions GmbH is the premiere manufacturer of ultrafast, compact and reliable laser oscillator and amplifier solutions. Founded in 1994 in Vienna, Austria, the company's products and excellent services have evolved to be the first choice among OEMs and scientists worldwide for demanding applications and solutions. FEMTOLASERS state-of-the-art products offer technology of highest quality.

WE LIVE IN AN ULTRAFST WORLD™
COME JOIN US !

FEMTOMETER™, the autocorrelator for reliable characterization of pulses down to < 5 -fs comes in a package with a spectrometer and software. Its unique upright mounting option yields an unprecedented small footprint which is saving you precious space. An additional detector is available for microscopy applications, permitting pulse characterization directly in the focal spot.
